### Strophe 1

You said I'm wrong and right are you  
Time changed your life and your point of view  
Things aren't easy and it's hard to confess  
You have to leave and for you it's a mess.

### Strophe 2:

You packed your bags and made a last call  
Ten minutes later the bell rang in the hall  
You went out the door your steps quick and long  
A great hello then your laughter was gone

### Refrain 1:

I just have only one wish to the skies above  
Please my lord, make time change love

### Strophe 3:

So you changed your life and left me all alone  
Our kids wheeping, their hearts not made of stone  
Now your wishes all come true,  
Good luck for you babe, and leave me blue.

### Refrain 2:

I just have only one wish to the skies above  
Please my lord, make time change love  
I just have only one wish to the skies above  
Please my lord, stop money change love
